During this period, he handled multiple responsibilities. **TO WHOMSOEVER IT MAY CONCERN**

**Date: 31st July 2020**

It is with great pleasure that I recommend **Mr. Princeton Baretto** for a role in your organization. I had the opportunity to work with Princeton in our company when he participated in our internship programme in June-July 2020.

During his internship at our firm, we found Princeton to be a skilled individual with an innate ability to apply learned theoretical knowledge to practice. Princeton built multiple machine learning/deep learning models during his time here including but not limited to forecasting dengue cases in South America as well as identifying wheat buds in images in a pan-European study. His performance in the Dengue Case Prediction challenge especially was exemplary where his solution came in the top 4% of all submissions worldwide. This performance speaks in itself about his knowledge of the data science/AI domain and is a testimony to his desire to leave no stone unturned till a task is accomplished.

Other team members looked to Princeton for support whenever difficult technology related issues arose. He was treated with respect for his thoughtfulness and for always being ready to assist the team. Princeton will leave no problem unsolved, and will escalate issues to supervisors if he ultimately believes an issue needs further investigation. He was a positive member of the team and brought light heartedness to our team meetings, and a willingness to help with all discussions.

During my time working with Princeton, he has proven himself to be a hardworking and highly professional individual who quickly grasps new concepts, can critically analyze problems, devise solutions, and is always striving to improve himself for better execution of his responsibilities. I whole-heartedly recommend Princeton to a role at your firm.

It would be a pleasure to answer any queries in this regard. I can be reached by email at [mohil.bajaj@paica.org](mailto:mohil.bajaj@paica.org).
